INNOVATIVE, ENVIRONMENTALLY FRIENDLY MATERIAL CALLED KRYON™

AMERITYRE K2 Innovation in Solid Tire Performance

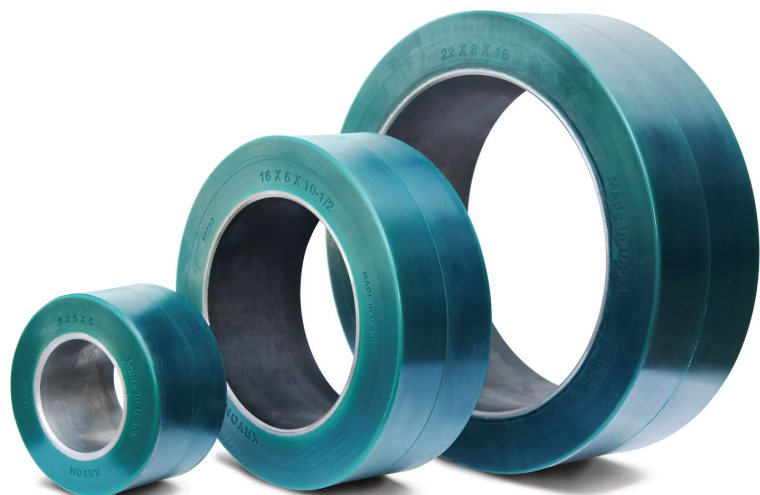

Amerityre Corp., Boulder City, Nevada, USA has developed an innovative new **KRYON** material for use with industrial truck and material handling applications. Combined with a new state-of-the-art high-tech manufacturing process, this new exciting product offers the following benefits to industrial tire users:

- Greater carrying and load capacities than rubber tires
- Lower rolling resistance than leading electric compound rubber tires
- Improved wear properties and extended service life over rubber tires in the most severe applications
- Non-marking – “Keeping it Clean”.

With the Amerityre K2, **ALL** of these benefits can be realized in one **NEW** innovative industrial tire.
